Professional Summary

DevOps Engineer with over 8 years of experience in systems administration and 5 years in DevOps, specializing in automation, cloud platforms (AWS, Azure), CI/CD pipelines, containerization, and infrastructure as code. Proven ability to optimize system performance, reduce downtime, and lead cross-functional IT initiatives

Core Skills

- DevOps Tools: Ansible, Jenkins, GitLab CI/CD,Argo CD, GitHub, Bitbucket, Docker, Kubernetes, Terraform,Ceph,minio,Nexus.
- Cloud & Virtualization: AWS, Azure, Proxmox, VMware ESXi
- Monitoring: Prometheus, Grafana, Zabbix, Cacti,ELK
- Scripting & Programming: Bash, React, Redux, C++, Delphi
- Systems: Linux (Ubuntu, CentOS), Windows Server, Active Directory
- Soft Skills: Team Leadership, Cross-Functional Collaboration, Mentorship

Professional Experience

- **DevOps Engineer** | Bugloos | Jan 2022 – Jan 2025

    - - Led containerization efforts using Docker, cutting infrastructure costs by 45%.
    - - Monitored systems with Prometheus and Grafana, reducing downtime by 30%.
    - - Implemented GitLab CI/CD pipelines, tripling deployment frequency (Ansible-GitlabCI/CD-Jmeter test_ nexus –vault).
    - - Optimized Proxmox virtual machines and implemented Zabbix-based monitoring.

- **DevOps Engineer** | Kafshdoozak (ARAD), Tehran, IR | Aug 2020 – Jan 2022

    - - Managed containerized services with Docker, monitored using Prometheus and Grafana.
    - - Built and deployed LMS and conferencing systems using Moodle and BigBlueButton, boosting student engagement by 30% across four institutions.

- **IT System Administrator** | Shahid Mahdavi Educational Complex, Tehran, IR | Mar 2019 – Aug 2020

- - Configured Microsoft domain and implemented performance monitoring tools.
- - Launched LMS panel and website with a team of 5, increasing traffic by 35%.
- - Led and mentored a 3-member IT team.

- **Assistant Network Administrator** | Pooyesh Samin Co., Tehran, IR | Dec 2015 – Mar 2019

  - - Deployed Microsoft domain and Linux VMs on ESXi 5.5, boosting uptime by 25%.
  - - Utilized Grafana, Zabbix, and SolarWinds for infrastructure monitoring.

- **Assistant Network Administrator** | Farda Pardaz Yekta, Tehran, IR | Jan 2014 – Dec 2015

  - - Engineered scalable virtual environments with ESXi and domain controllers.
  - - Reduced average server downtime from 4 hours to 20 minutes.

- **IT Assistant** | Takvin Teb, Tehran, IR | Feb 2013 – Jan 2014

  - - Maintained Microsoft Domain Controller and CRM systems for 50+ clients.

- **IT Assistant** | Shenase Pardazan Farda, Tehran, IR | May 2010 – Mar 2013

  - - Configured Microsoft Domain Controller and barcode system for Irancode Center.

Education

BSc in Computer Science | Payame Noor University, Tehran, Iran | GPA: 15.35

Diploma in Mathematical Physics | Neday Fatemeh High School, Tehran, Iran | GPA: 19.80

Certifications

- DevOps Engineer – Simplilearn (Jan 2022)
- AWS Developer Associate – Simplilearn
- Certified Kubernetes Administrator (CKA)
- Ansible, Docker – Simplilearn
- LPIC-1 & LPIC-2
- MCITP
